

intAct Battery-Guard

Battery monitoring with Bluetooth transmitter and smartphone app for iOS or Android.

Dimensions (L x W x H)	60 x 45 x 15 mm
Weight	33 g
Cable length	260 mm
Connection	bis M8
Bluetooth Version	5.3
Housing protection class	IP67
Power consumption not connected	0,534 mA
Power consumption connected	1,7 mA
App-Download	Apple App Store > iOS 10.0, ab iPhone 5S Google Play Store > Android 4.3
Dimension packing (L x W x H)	110 x 160 x 25 mm
Weight incl. packing	73 g

With the **intAct Battery-Guard** you can easily monitor the state of charge of your battery via app. Simply attach the **battery guard** to your battery with the battery clamps, register the device with the device number or via the barcode in the app, and then fix it to the battery with the supplied adhesive pad. And already non-starting motors and empty supply batteries are a thing of the past.

General characteristics:

- » Suitable for all **12V** lead-acid (wet, AGM, EFB or GEL) and 12V lithium (LiFePO4) **batteries**.
- » Display of **battery voltage** (incl. push notification in case of critical voltage condition) and **case temperature**.
- » **72-day data storage** (voltage, state of charge % and case temperature) on the device and unlimited data history in the app.
- » Perform **cranking test** and **charge tests** with the app.
- » **Reverse polarity protection** protects battery and device.
- » With free **"intAct Battery Check"** app for iOS and Android.
